

Consent

Study Information and Statement of Informed Consent for Adult Participants

Thank you for your interest in participating in our study. Please take your time to read this text carefully. If you have any questions, we are happy to answer them. By agreeing, you consent that you have read the information presented and that you are willing to participate in the study.

1. Aim of the study

In this study, we are interested in people's judgments about everyday social scenarios.

2. Procedure and content of the study

In this study, you will read about a social scenario and you some ideas generated by the Large Language Model ChatGPT-4. You will then be asked a series of questions and for your opinion on the scenario. In the end, you will be asked to provide demographic information. Further information regarding the task will be provided later.

3. Are there any risks involved?

Participating in this study is associated with no risks.

4. What will happen to the information and data collected?

This study is a research project of the [XXXXX] The data collected will be used for research purposes only. The data collected will be used for research purposes only. During the data analysis, your data may be shared with our collaborators. Your Prolific ID will be not be saved in our dataset.

The study data may also be made publicly accessible via research databases or scientific

publications (typically via the Internet). This sharing of data makes it possible for other researchers to check or replicate the results of the study and enhances the quality of scientific research. The study data may also be used for new research questions going beyond the purposes of this particular study. Please note that once study data are publicly accessible, further distribution by others cannot be ruled out as this is beyond the area of influence or responsibility of the MPI for Human Development. Therefore, as a matter of principle, study data are only transferred or made publicly accessible without your Prolific ID.

5. Participation is voluntary

Participation in this study is voluntary. You may withdraw from the study at any time without giving any reason and without any negative consequences. Please note that compensation will only be provided to participants who complete the entire study; if you choose to withdraw or do not finish the study, you will not receive compensation. You may also withdraw your consent to data processing and usage at any time with effect for the future and without negative consequences. For further questions or requests to withdraw your data, please contact [.....]

6. Consent

This document has informed you about participation in this study on idea generation. The study involves generating ideas about a social scenario and making a series of judgments about these ideas and the scenario. It lasts approximately 5 minutes.

- ☐ I **consent** to participate in the study and agree to the collection, storage, and use of my data as described above.
- ☐ I **do not consent** I consent to participate in the study and agree to the collection, storage, and use of my data as described above.

Comprehension Check1

The color test you are about to take in is very simple, when asked for your favorite color you must select 'Red'. This is an attention check.

Based on the text you read above, what color have you been asked to enter?

- ☐ Blue
- ☐ Green
- ☐ Yellow
- ☐ Red

Comprehension_Check2

Unfortunately, this response was not correct.

Please try again.

The color test you are about to take in is very simple, when asked for your favorite color you must select 'Red'. This is an attention check.

Based on the text you read above, what color have you been asked to enter?

- ☐ Blue
- ☐ Green
- ☐ Yellow
- ☐ Red

Instructions_1

In this study, you will read three short scenarios.

For each scenario, you will be presented with different actions the agent in the scenario could take. These actions will be generated by the Large Language Model ChatGPT-4.

After that, you will answer some questions about the scenario and the actions that ChatGPT-4 came up with.

Please read the scenarios carefully.

Select the correct description of your task:

- ☐ I will be asked questions about the actions that I came up with.
- ☐ I will be asked questions about actions that ChatGPT-4 came up with.

and not gotten more ill.

"\${e://Field/C3S1Action5}"

If Heinz had done something like this, his wife would have received the medication in time and not gotten more ill.

Condition3_Scenario2

Please read the following scenario:

Josh is on the way to the airport to catch a flight to a hunting safari in Africa. He leaves with plenty of time to make it there, but his car breaks down on the highway. Now Josh is sitting in his car near a busy intersection, and knows he needs to get to the airport soon if he is going to catch his flight.

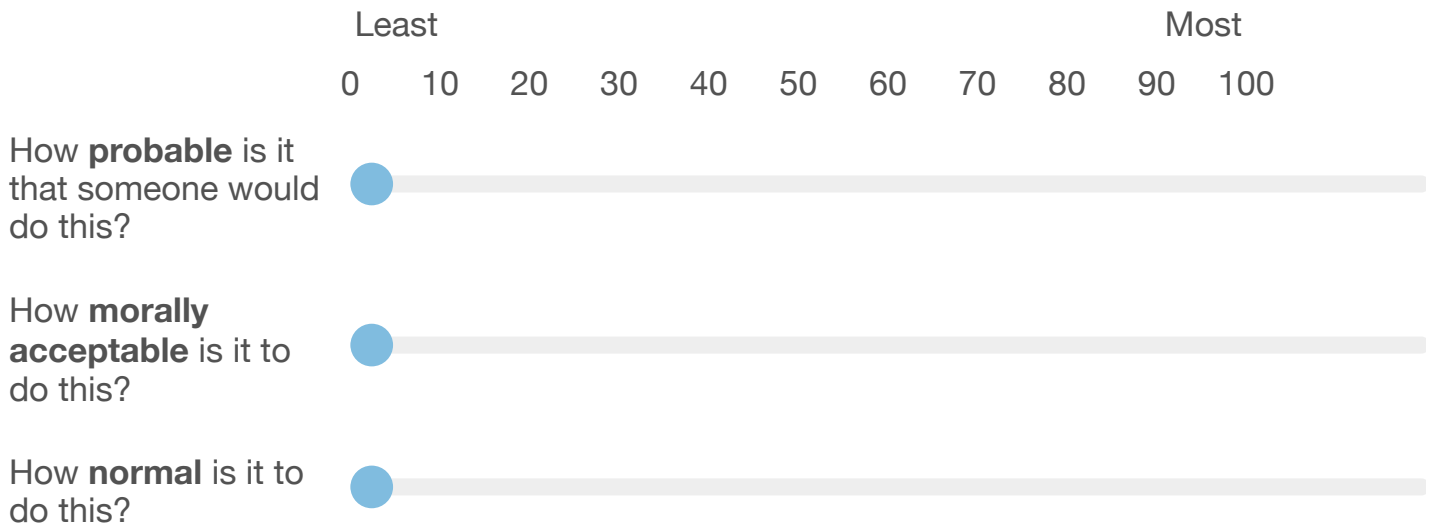

Here are some things Josh could do, as suggested by Chat-GPT:

\${e://Field/C3S2_Response}

Consider one of the things suggested by Chat-GPT that Josh could do:

\${e://Field/C3S2Action1}

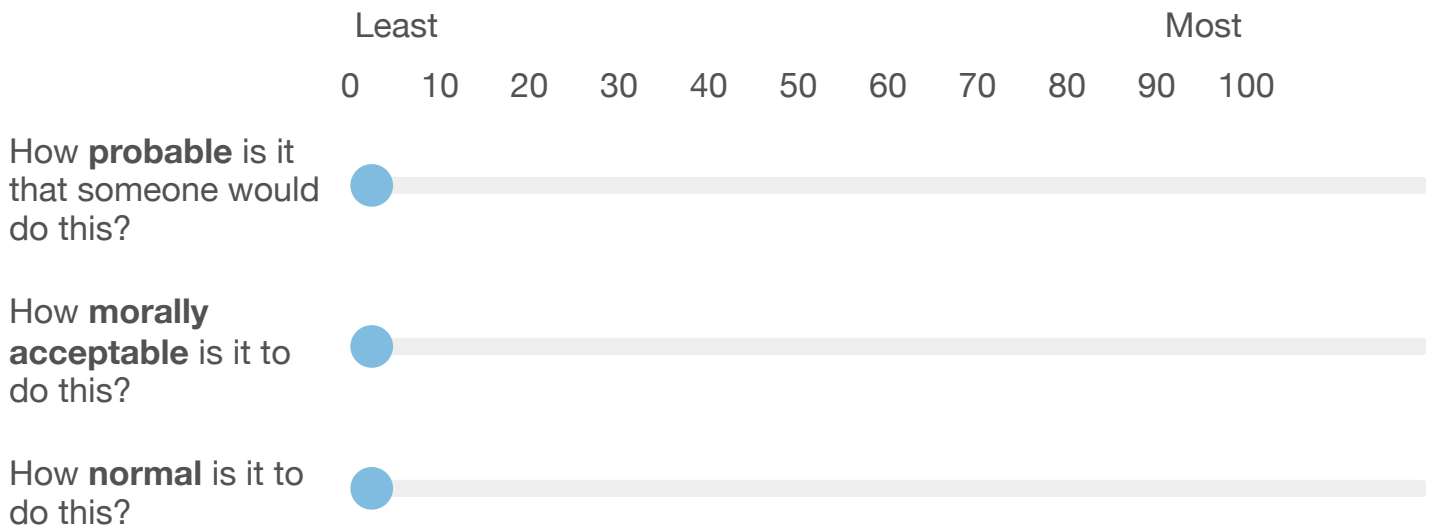

In Josh's situation:

Consider one of the things suggested by Chat-GPT that Josh could do:

`{e://Field/C3S2Action2}`

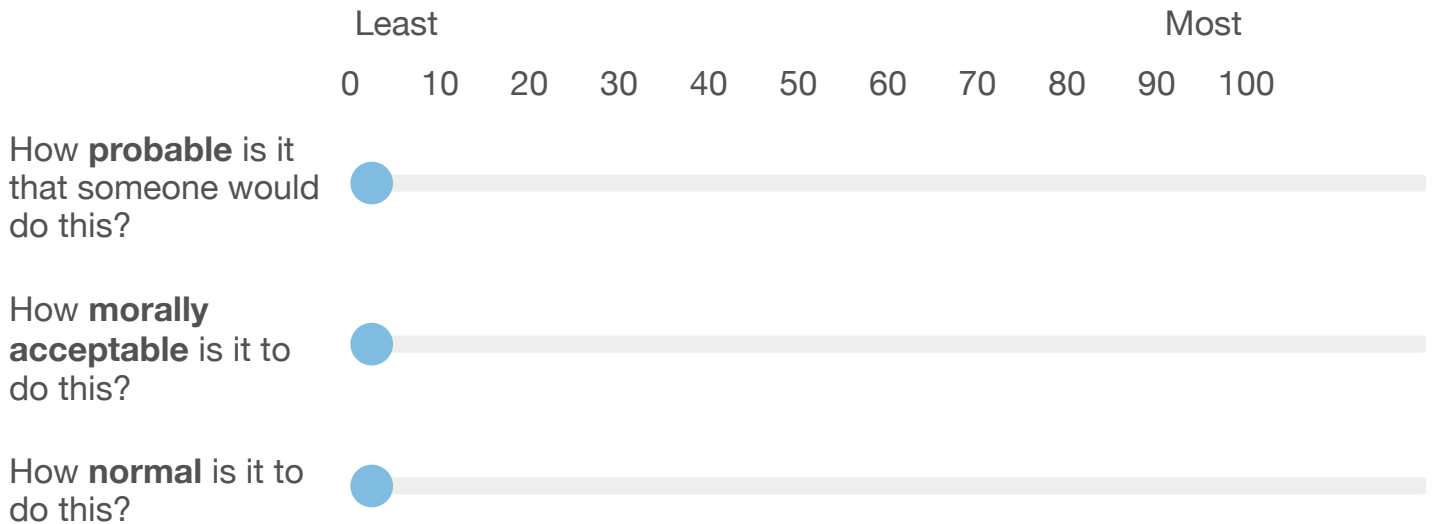

In Josh's situation:

Consider one of the things suggested by Chat-GPT that Josh could do:

`{e://Field/C3S2Action3}`

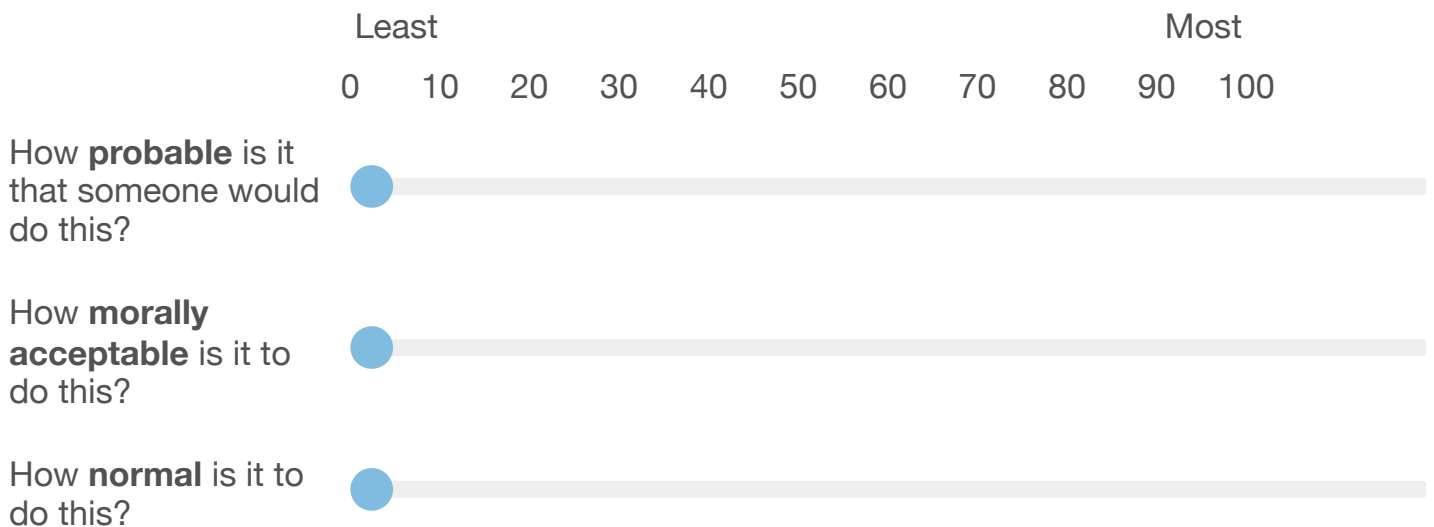

In Josh's situation:

Consider one of the things suggested by Chat-GPT that Josh could do:

`#{e://Field/C3S2Action4}`

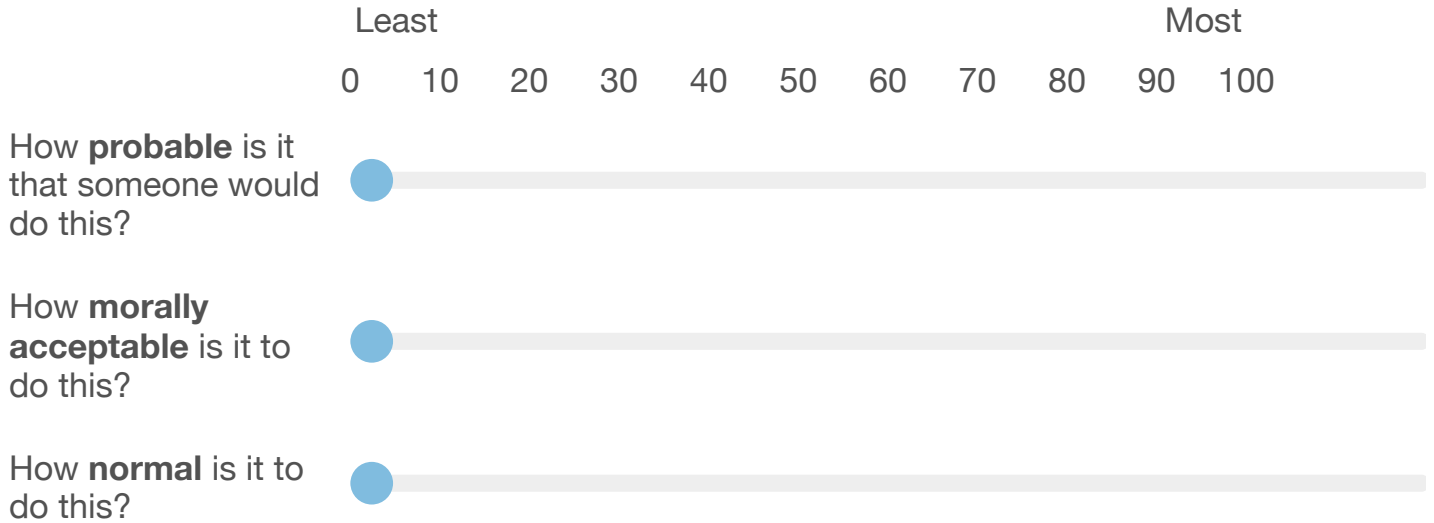

In Josh's situation:

Consider one of the things suggested by Chat-GPT that Josh could do:

`#{e://Field/C3S2Action5}`

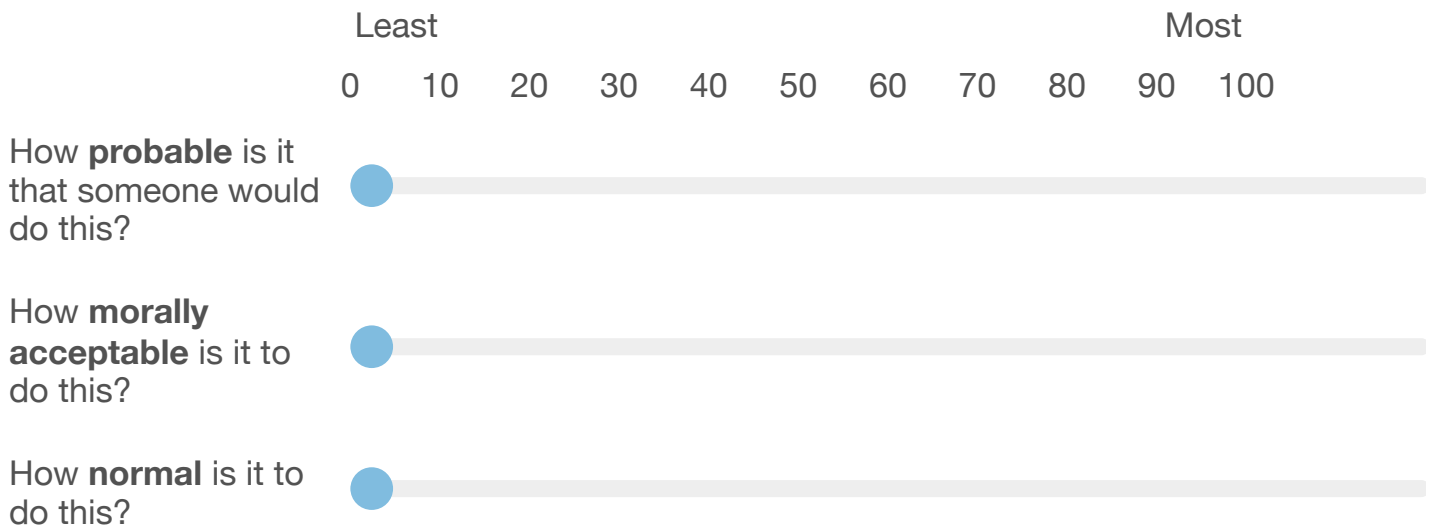

In Josh's situation:

Now, you will read about what Josh decided to do.

Josh decides to take a public bus.

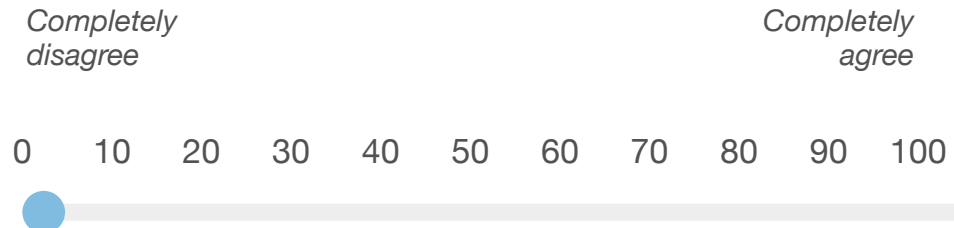

In Josh's situation:

As a result, Josh does not make his originally scheduled flight, so other people going on the safari have to wait for him.

Please rate how much you agree with the following statement:

"Josh should be blamed for the safari being delayed."

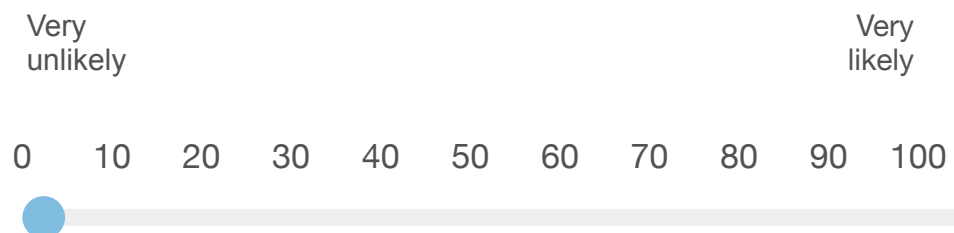

C3-S2-CF

Please answer the following questions:

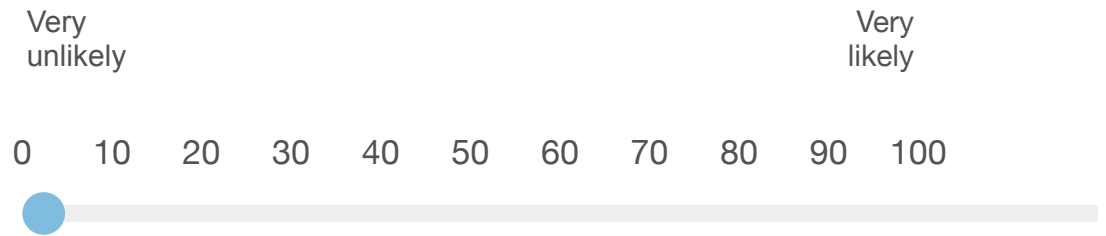

"\${e://Field/C3S2Action1}"

If Josh had done something like this, he would have caught his flight, and the safari would have proceeded as planned.

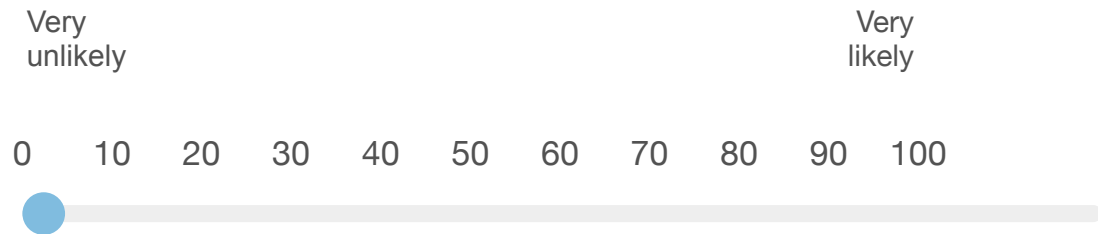

"\${e://Field/C3S2Action2}"

If Josh had done something like this, he would have caught his flight, and the safari would have proceeded as planned.

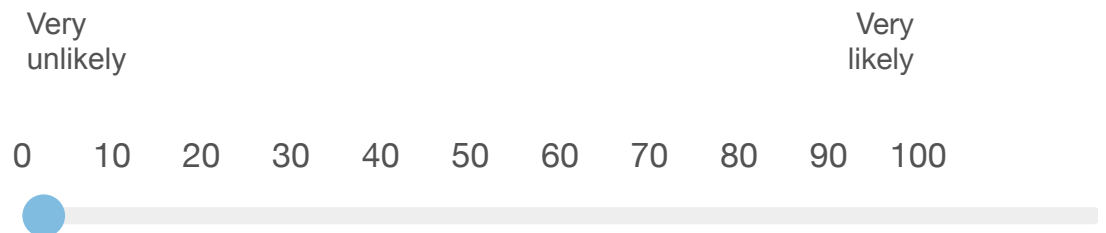

"\${e://Field/C3S2Action3}"

If Josh had done something like this, he would have caught his flight, and the safari would have proceeded as planned.

Condition4_Scenario1

Please read the following scenario:

Heinz's wife has recently fallen ill and needs an expensive medication that is not covered

by her medical insurance. They don't have the money needed to purchase the expensive prescription, but they know that it's vital for her to have it if she is going to recover.

Here are some things Heinz could do, as suggested by Chat-GPT:

`#{e://Field/C4S1_Response}`

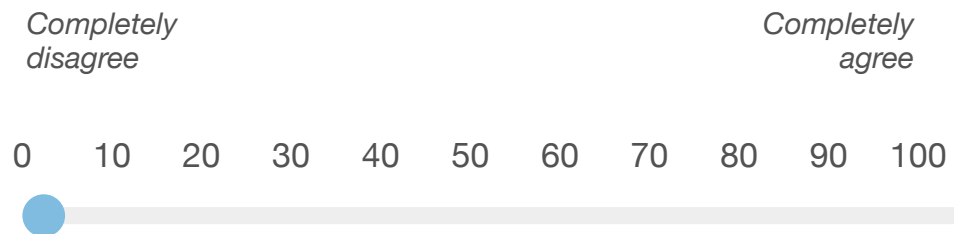

Now, you will read about what Heinz decided to do.

Heinz decides to search for the medication on the black market.

After doing this, Heinz' wife gets the medication later than necessary, and she soon gets more ill.

Please rate how much you agree with the following statement:

"Heinz should be blamed for his wife getting more ill."

Consider one of the things suggested by Chat-GPT that Heinz could do:

`#{e://Field/C4S1Action1}`

In Heinz's situation:

and not gotten more ill.

Condition4_Scenario2

Please read the following scenario:

Josh is on the way to the airport to catch a flight to a hunting safari in Africa. He leaves with plenty of time to make it there, but his car breaks down on the highway. Now Josh is sitting in his car near a busy intersection, and knows he needs to get to the airport soon if he is going to catch his flight.

Here are some things Josh could do, as suggested by Chat-GPT:

`{e://Field/C4S2_Response}`

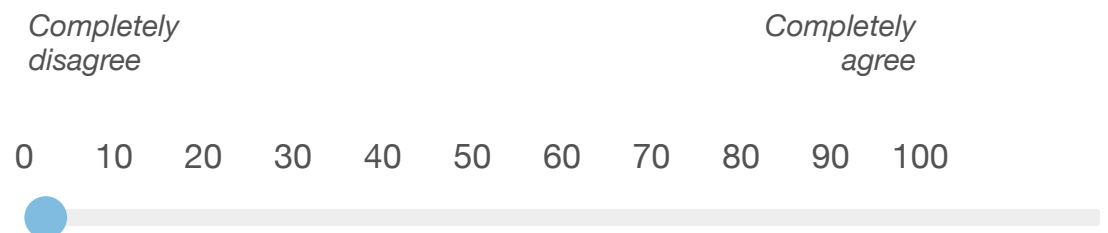

Now, you will read about what Josh decided to do.

Josh decides to take a public bus.

As a result, Josh does not make his originally scheduled flight, so other people going on the safari have to wait for him.

Please rate how much you agree with the following statement:

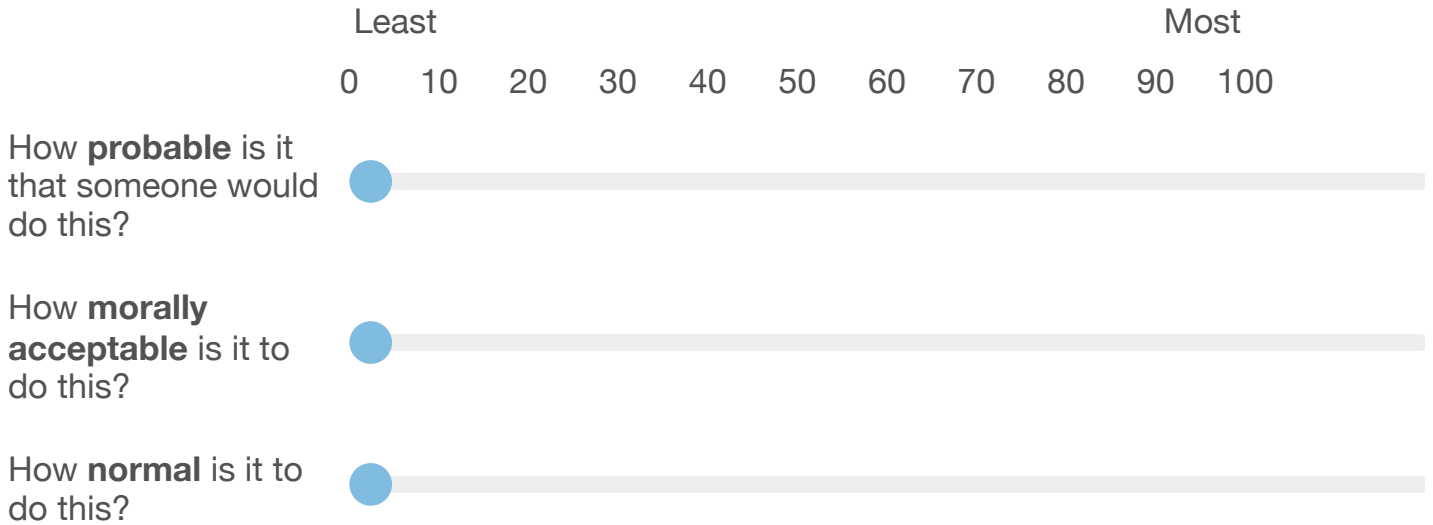

"Josh should be blamed for the safari being delayed."

Consider one of the things suggested by Chat-GPT that Josh could do:

`{e://Field/C4S2Action1}`

In Josh's situation:

Consider one of the things suggested by Chat-GPT that Josh could do:

`{e://Field/C4S2Action2}`

In the following, we want to know if any of the ChatGPT-generated did text not show up.

Question 1:

When rating the ChatGPT-generated actions on three questions (see example 1 below), was there empty space instead of text?

Example 1:

Consider one of the things suggested by Chat-GPT that Heinz could do:

In Heinz's situation:

Answer to Question 1:

- ☐ Yes, this happened to me. (Please write down for which scenario if you can recall it).
- ☐ No, this did not happen.
- ☐ Other

Question 2:

When rating the ChatGPT-generated actions at the end of a scenario (see example 2 below), was there empty space instead of text?

Example 2:

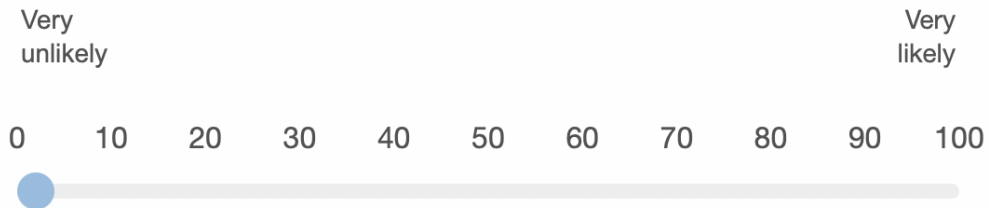

Please answer the following questions:

""

Text missing!

If Cameron had done something like this, the woman would have reached her destination on time.

Answer to Question 2:

☐ Yes, this happened to me. (Please write down for which scenario if you can recall it).

☐ No, this did not happen.

☐ Other
